- Organizational skills

About me

I'm a **Software Engineering** student at SEE University in Tetovo, with a passion for crafting **visually captivating** experiences. I strive to bring ideas to life through **clean and direct** design. My expertise extends beyond technical prowess, encompassing **emotional intelligence, teamwork, efficiency, organization, flexibility, leadership, and problem-solving**. In every project, I lead with clarity and collaboration, navigating diverse challenges **with ease**.

Education

South East European University, Tetovo

2023-2027

Bachelor of Science in Software Engineering

Relevant Coursework:

Fundamentals of Programming, Object-Oriented Programming, Data Structures and Algorithms, Graph Algorithms, Operating Systems, Computer Systems, Databases, Calculus

Projects

Weather App

JavaScript

Developed a a simple weather application that displays weather information for a given city.

- This Weather App provides users with current weather information for a specific city. It displays details such as temperature, weather condition, humidity, and wind speed. The application fetches data from an external API and dynamically updates the UI based on the retrieved information.
- City data is fetched from [OpenWeatherMap](#).
- [Design file](#)

Orasel NMK (collaboration)

HTML CS JS

Developed a front end site for a local business

- Browse through the collection of various tools and equipment.

LastTicket

HTML CSS JS

Developed a bus-focused traveling website

- Developed for a university class, focused on Front-End development.
- [-Design File](#)

EuroLine (under development)

HTML CSS JS

Developed a car-rental website

- Developed while trying to learn how React works.
- [-Design File](#)
